**Different:** Listen to ebooks on the go with ReadSpeaker integration\*

*"I asked my students what they like best about Labyrinth and it was unanimous: They like the ebook. They like the notes, the highlights, the search and menu features, the videos; it just makes learning fun."*

## POWERFUL SEARCH

### Search, made book smart.

One of the best features of the ebook is the smart search. With the click of a button, students and educators can navigate the entire book. No more flipping page by page to find a concept? What a concept!

MULTIMEDIA CONTENT

## More than pretty pictures.

Our ebooks come equipped with multimedia content, such as videos and animations, embedded right within the pages. There are even self-assessment quizzes they can take without ever leaving the book. *Learning material* — meet *Student engagement*.

UNLIMITED ACCESS

## Wrinkle free.

Our ebooks are built to be flexible and timeless. They're automatically updated when software changes occur, and they don't have an expiration date; students can use them forever and ever (and ever).
